

## Team of the project

The team of trainers working on this project has a huge background in this field and has been implementing many projects for young people around the world. The methodology is based on learning by doing, which refers to the process of making meanings from direct experience. The method has been implemented by the concepts of learning by thinking and learning by loving. Learning by thinking denotes the action of reflecting on the process going on, in order to get knowledge from it. Finally, learning by loving expresses the importance given to motivation and passion that enrich the learning experience. The methodology is based on the concepts of motivating youngsters become active members of society, practicing new, creative tools for change and development.

## The project methodology

The project METHODOLOGY is based on non-formal education (NFE) methods, valorizing the knowledge and experiences of the participants. NFE –as a mean of facilitating the learning process and increase the interactivity of the Training Course: Peer to peer education or learning through experience, meaning that practical workshops and individual experiences will be most of the time the starting point for reflection.

## Support Spot:

How to reach Generator9.8: Exit the airport and go to the bus stop in front of the airport (it is really small) and jump on the bus 37.

Ticket machine is on the bus (we use LARI (GEL), ticket costs 0.50 Lari, you can exchange money in the airport and keep coins with you for a ticket).

Get out of the bus stop which is in city center, called “Baratashvili street” (Kolmeurneoba) – according to the web page calculation it takes maximum 50 minutes.

(In Georgian it is called Mshrali Khidi)

which is just 5 min from bus station. There you can find a Generator 9.8 (address: Atoneli street 29). If you arrive at night, there are no buses after 23:00. In that case there are two options: you wait till the morning at the airport and then you will take bus or you do not wait and take taxi which cost maximum 25-30 GEL.
